## **MISSION STATEMENT**

The Mission of the Fee System Network (FSN) is:

To incorporate statewide policies and procedures that enable financial accountability while insuring fiscal responsibility and offender accountability.

To develop and implement standardized procedures to document, maintain and transfer accurate records of offender costs of supervision.

By maintaining consistency within the DOC Fee System, we bring the capability to track offender fiscal conditions throughout the state. We also create offender accounts that are easily transferred to another county requiring minimal or no adjustment by the receiving county.

FSN accomplishes this mission by increasing our knowledge of and implementing the policies and procedures created, sharing information and expertise, and promoting statewide support and staff participation.

Quarterly FSN meetings allow for analysis and solution of problems or issues concerning Fee System accounts, policies and procedures. Attendance by all Fee System users is encouraged. Minutes are taken and distributed to all Fee System users and representatives.

## *Don't Do This!*

- Never take a payment on another county's account. If the offender has the money in hand and absolutely must pay, handwrite a receipt and forward to the other county.
- Never close or post transactions to another county's DOR account. This is the only type of account that does not transfer with the offender to a new county.
- Never do entry work in the Fee System from the Info Window (F11, 4).

**\*Please Note: The SUPV account type is auto created during the ADMISSIONS Process and the SUPM account type can be manually created if used by your office. With both account types the record MUST have an open offense line before monthly auto BILLING can occur. Monthly auto BILLING stops when an offense reaches its Max Date, even when the offense is still open.**

# MAINTENANCE TABLE FOR SUPV FEES/RECEIPT PRINTER/DOR

From the CCFEE menu select Option 14

	CCOM	Community Services C			*WRKSTN			
	CLAC	Clackamas County Com	45.00	N	CCT60P1	7G5	DESC	ALPH

You will be able to see everyone’s default settings, but you are only allowed to make changes to your individual county and “L” location.

The only “Option” available is A=Audit stamp which allows you to see who last made changes for your location.

Tab to the fields, type in the information and press <ENTER> to save.

The Amount column is for your local supervision fee amount. If your county has more than one default SUPV fee amount, such as one for misdemeanants and one for felons, you will have to decide which amount is used most often and enter that amount on the table. **DO NOT** use the \$ sign. Once an amount has been entered in this field, all new SUPV accounts will show that amount when they are created. You can still modify individual accounts when necessary. If this field is left blank, your new accounts will continue to use the system default of \$25.00

**NOTE:** The system requires that a DOR Program Code be entered if you are entering data in the Amount field.

The C/O (Court Ordered Amt) column is a “Y” or “N” field. Please set this field to Yes or No based on your Court’s normal practice.

The Print Outq column currently lists the printer assigned to the RCPT printer profiles on the DOC400. Be sure to check both your county location and “L” location. Please remember, the printer name must be a recognized device on the DOC400 or it will not work.

The DOR (Department of Revenue) field is for your county’s specific 3 digit DOR Program Code. If this field is left blank, the DOR form will continue to use the system default of 771.

**NOTE:** If you are entering a SUPV fee amount, the system will not allow you to leave the DOR field blank.

**PLEASE REMEMBER:** Changes to the maintenance table will have no effect on existing, open or closed accounts. Once changes have been made, that information will show on all newly created SUPV accounts. You can still change the “Fee amount” and “Court ordered amt” fields on individual accounts if need be.

## **SORT FUNCTION**

The Sort Function allows fees accounts to be sorted by Alpha, Descending or Ascending order by toggling through the sort orders using the function key F20. The six sort options are: Alph/Asc, Alph/Desc, Desc/Desc, Desc/Alph, Asc/Asc, Asc/Alph. The System default will remain as chronological order, oldest to newest (Asc/Asc). The only EXCEPTION to the sort rule is that open SUPV accounts will ALWAYS appear at the top of the account list.

The sort function will also apply when the F16=Include Discontinued view is selected. The accounts will be split into two blocks: Open (top block) and Discontinued (bottom block), and the selected sort will apply to each block. Again, open SUPV accounts will always be at the top of the list.

The Primary and Secondary default sort will be set by each County from W/W Default Fees. If values are put into the sort columns, the initial sort is in the chosen order. Only FSN Representatives have the ability to change the default sort order.

All users will have the ability to temporarily change the sort order using the F20 function key. If users press F5=Refresh, F3=Exit, or F12=Cancel, the sort order will revert to the default sort.

Printed documents including receipts, reports, etc., will follow the selected sort order, mirroring the screen.

Printed billing statements will follow the default sorts established from W/W Default Fees, with open SUPV accounts on top of list.

### Sort Values:

<u>Primary</u>	<u>Secondary</u>	<u>Result</u>
ALPH	ASC/blank *	Account Type Alphabetically; Start Date Ascending order
ALPH	DESC	Account Type Alphabetically; Start Date Descending order
DESC	DESC/blank *	Start Date and Time created in Descending order
DESC	ALPH	Start Date Descending; Account Type Alphabetically
ASC	ASC/blank *	Start Date and Time created in Ascending order
ASC	ALPH	Start Date Ascending; Account Type Alphabetically
Blank	Blank	Start Date Ascending (System Default)

\* denotes defaults

Secondary sort value is optional. If left blank, the default will be used. Primary option is required if the Secondary option is filled in.

The system only allows the above sort values. An error message will display at the bottom of the screen if user an incorrect value or a secondary sort value without first selecting a primary sort value. The F4=Prompt does not work in the sort fields.

- The Court ordered amount will reflect the default from the Maintenance Table (see page 6). Changes can be made to individual accounts from this screen.
- The next piece of data you need to enter is the amount of the fee.
- The Print statement section defaults to 'Y'. This will allow a bill to be printed when you run your billing process. This should only be changed to 'N' if you DO NOT want a bill to print.
- Next you will need to fill in the billing cycle code. Use the F4 prompt to pull up a table of codes.
- You need to position your cursor on the code you wish to use and press <ENTER>.

## COUNTY OVERRIDE

The purpose of the Override fields is to provide counties with an electronic method of reducing an offender's monthly fee amount for a specific period of time and to then automatically return the account to the default fee amount when the time period has expired. Use will be a county-by-county decision and based on your internal policies and/or practices. No one is required to use the override feature. An example of an override use would be to reduce the supervision fee amount as an incentive measure, i.e. reduce SUPV fees while offender is going to school.

- \* County override amt field can ONLY be set to "Y" when Court ordered amt field is "N".
- \* When County override amt field is set to "Y", an Override End date is required.
- \* You may use the Override End date field when Court ordered amt is "Y", but it is not required.
- \* A new "nightly" job will run behind the scenes to look for Override End dates that are equal or prior to the system date. When the record reaches its Override End date, the system will change the Fee amount back to the location's default amount, and return the County override amt and Override End date fields to "blank".
- \* If the County override amt field is set to "Y" and the offender is transferred and admitted to a new location prior to the Override End date, the Fee Amt will change to the new location's default fee amount and the County override amt and Override End date fields will return to "blank".

## VIEW ACCOUNT HISTORY

- To view the transaction history on an account, press F7, press F8 twice or put your cursor next to the account you want to view, F8 once. The transactions are listed in descending order so that the most recent transactions are listed first. The balance owing is shown at the top of the "Transactions" screen.

## EXPLANATION OF FEE TRANSACTION TYPES

### TRANSACTION COMMENT IS ALWAYS RECOMMENDED IF NOT REQUIRED

ADJ	ADJUSTMENT UP (+) Generates an increase in the balance owing when a positive number (25) is entered. Use 'BA' as the document type. Can be used to transfer a balance due from a previous location to current location or an account that had been closed to violation, (see discontinued account to retrieve this figure).
ADJ	ADJUSTMENT DOWN (-) Decrease the balance owing when a negative number (25-) is entered. Be sure to use the negative sign in both the 'amount received' and the 'transaction amount' in the select section. Use 'BA' as the document type. Can be used to record prior payments. Use a negative behind the number to generate a negative adjustment.
BILL	BILLING (+) Automatically generates an increase of balance due. This bills the account by the amount set-up in the account, i.e. \$25 (or more) for supervision fees. Done by the system at the first of each month.  Please Note: The SUPV account is auto created during the ADMISSIONS Process. Monthly SUPV BILLING will not start until the first day of the month AFTER the offense has been entered.
NSF	CHECK RETURNED (+) Generates an increase in balance due. Adds back to the amount due the amount of the NSF check. Use "CK" as the document type and check number as document number. Comment should be made referring the NSF payment date.
OPM	OVER PAYMENT (+) Generates an increase in the balance due. Use the same document type and number as used for the PMT. Used when a PMT has mistakenly been recorded.
PMT	PAYMENT (-) Generates a decrease in the balance due. Reflects receipt of cash, check, money order or wire transfer, and to be used <u>SOLELY</u> for that purpose.
PREV	PREVIOUS BALANCE ADJUSTMENT (+) Generates an increase in the balance due. Use this when it is necessary to bring a balance forward, usually used for supervision fee accounts closed due to violation.
STOP	STOP PAYMENT – CHECK (+) Generates an increase in balance due. Adds back to the amount due the amount of the check that was stopped. Use "CK" as the document type as well as the check number.
UPM	UNDER PAYMENT (-) Generates a decrease in the balance due. Use the same document type and number as used of the PMT. Used when PMT has mistakenly been recorded.
WAVR	WAIVER (-) Generates a decrease in the balance due. Transaction comment <i>must</i> be used for explanation of

waiver. The waiver should be done for each month the balance or portion of the balance is waived.

**WIL WORK IN LIEU OF PAYMENT**

(-) Generates a decrease in the balance due. Transaction comment *must* be used.

**Reminder:** It is important to supply as much information on the Collection Assignment form to DOR as possible. The more information that they have the more likely they are to collect on the debt, i.e. AKA's, bank information, employer information, other DOB's & SSN's.

## Creating a DOR Account

A DOR account will always show the location of the creator, no matter where the offender is currently being supervised.

Using the F6=Create function from either the Fee Transaction Entry screen or the All Fees window takes you to the Maintain Fee for Offender window (CMS3111). When you type DOR as the Fee type, add a Fee amount and Cycle code, and press enter to save, a data line called "Fee Location" will display on the window - located directly below the Supervising Location line.

The new Fee Location field will be underlined, meaning it is changeable. The Fee Location can only be changed by someone with authority to that location, and only while the DOR account remains open. Once the DOR account is closed, the Fee Location field will no longer be underlined and cannot be changed by the users. In effect, it will be locked. If for some reason the location needs to be changed after the account has been closed, it will be necessary to contact the Help Desk and ask for a ticket to Development. We are hoping this won't be necessary very often.

Please note that even though the Fee Location field becomes locked when the account is closed, you are not locked out of the account. You can continue to post transactions and conduct business as usual.

### **Special Note:**

Most offices only have authority to one location code, so once your DOR account has been created, with your Fee Location, you probably won't need to make any changes to the Fee Location prior to closing the account. However, offices like Multnomah County who have authority to many MT location codes, will likely need to change the Fee Location once the account has been created and BEFORE the account is closed and locked. Other offices, like Klamath/Lake, Union/Wallowa, Umatilla/Morrow, and Tri-County, may run into the same situation. If a KLAM user creates a DOR account for LAKE, the DOR account will initially show a Fee Location of KLAM with a Supervising Location of LAKE. If the DOR account needs to belong to LAKE, someone at KLAM or LAKE will have to make that change BEFORE they close the account. We apologize for any inconvenience this may cause, but there is no way for the system to know which Fee Location you want to use when you have authority over multiple locations.

## **DOR General Information:**

- DOR collects for 160 different state agencies, including Circuit and District Courts, Traffic Courts, Student Loans, OHSU patient accounts, DCBS Civil penalties and Corrections Fees – Parole and Probation.
- DOR only cares about the total amount being sent in for collection. The collection form can be completed with either the total in “Tot Principal” or it can be broken down. (i.e.  $\$850 - 0 = \$850$  vs.  $\$900 - \$50 = \$850$ )
- Supervision fees, collected through Department of Corrections are considered *Unrestricted Accounts*, which means that the accounts receive full collection services and the agency is charged a 12% fee, or less to maintain non-profit.
- All accounts assigned to Other Agency Accounts must be a liquidated debt.
- Counties are not required to notify the offenders before they are turned over to DOR, however, it is highly recommended. Quite often the offender will pay the balance without it ever being turned over to DOR.
- Court fines, fees and restitution comprise 80% of OAA accounts, while 20% is from corrections, student loans and hospital accounts.
- Within 5 days of an account being sent to DOR, the client will receive a notice of assignment, which requests a payment within 30 days. If the client responds they are set up on a payment plan, with a minimum payment of \$25 per month. If the client does not contact DOR to voluntarily set up a payment plan, then a letter of demand is sent out and more research is done to locate client through various resources such as DMV, Employment Division, OJIN, etc. If there is still no response then a Destraint Warrant is issued and a wage garnishment or a bank garnishment may be requested. A wage garnishment will stay in effect until the debt is paid in full. An attempt to reach a client by phone may be made at any stage of this process.
- State tax refunds may be applied to the debt, but no Federal refunds are attached.
- Only clients who make at least minimum wage can be garnished and an employer garnishment is always done before a bank garnishment.
- After an account has gone through the collection process, it goes into a pot. If the debt is determined to be collectible by a revenue agent, it is held for future financial review. If it is determined to be uncollectible it is returned to the sending agency. At that time the agency will need to decide whether to turn it over to a private collection agency or write it off as a bad debt.
- DOR does not make claims on estates, hold hearings, approve settlement offers or refer accounts to a private collection agency. However, if you receive any information regarding a client inheritance or estate, they suggest notifying them.
- The reporting agency can update information and report any changes or payments received to DOR either by telephone, paper or by faxing to 503-947-2050.

- DOR does not take third party checks/money orders. You must either take the payment and send DOR notification the client has paid, deposit it into your county account and send a check to DOR being sure to include your DOR program code and any identification information you have for the client or give it back to the client and have them send a payment made out to DOR.
- There are currently five reports that are generated by DOR. These reports are available, usually the first week of the month, by accessing the File Transfer Facility on DOR's website. The FSN Rep of each county has been given access capabilities to their directory. The reports are as follows:
  1. OAA Payment Report – Payment totals by county
  2. Zero – Those accounts with a zero balance either through payment in full or being returned by DOR
  3. Aging – Accounts still open
  4. Payment – Payment report
  5. Stats – All accounts with any activity such as new accounts or those returned to the county

## **RULES BUSINESS**

### **WAIVER of SUPERVISION FEES:**

Approval according to your county Business Practices.

Comment: **'TRANSACTION COMMENT' FIELD IS REQUIRED FOR ALL WAIVERS**

Fees may be waived for jail and in-house treatment programs.

### **WAIVER OF SUPV FEES ALTOGETHER FOR GIVEN OFFENDER:**

Account can be closed. [F7=Fee Acct]; Tab to acct line <ENTER> [F14=Close acct]. The system requires a note (comments or reasons) for closure of an account. The best method to close an account is to first waive the remaining balance and enter comments at this time.

### **ABSCOND TIME:**

When offender is closed to abscond or other outcount, fees should be suspended. The system will automatically do this for you (Print statement = N as well as discontinue billing). It will also turn the "Print Statement" back to "Y" and resume billing when offender is re-opened from abscond or other outcount.

Some counties continue to charge offenders for abscond time, but instead of calling it a supervision fee, they call it a File Maintenance fee

### **IN CUSTODY:**

Offenders in custody or jail will not be responsible for payment of supervision fees while in custody. When an offender is moved to the Institution or Local Control, the Fee system will automatically close the SUPV fee account to VIOL. When the offender is returned to Supervision the system will automatically open a new account. If the offender had a balance on his old account, you will need to adjust the old account to '0' and add the balance to the new account by adjusting it or creating a PREV account.

### **UNPAID SUPERVISION FEES:**

When offender reaches the end of his/her term of probation/Post Prison Supervision, and there is an outstanding balance, this balance can be turned over to the Department of Revenue. See that section for more information.

### **PROBATION EXTENSIONS:**

Probation can be extended for non-payment of supervision fees by the courts.

### **DOR ACCOUNTS**

**DOR accounts are to be created for DOR only.** If DOR returns the account and a private collection agency is used, *this must be tracked outside the DOC400.*

## **COMPACT**

### **RELEASING TO/ADMITTING FROM COMPACT:**

When an offender is released to CMPO (outgoing compact) the Fee System will automatically turn the “Print Statement” to (N) and it will no longer bill monthly fees.

If the offender returns to supervision in Oregon and has been admitted back from outcount status, the Fee system will automatically change the “Print Statement” back to (Y) and will not “back bill” for those months offender was out of the state.

## **TRANSFER**

When an offender is transferred to another location, all open accounts will automatically transfer to the receiving county. The only exceptions are DOR accounts. These will remain with the county that opened the line. If your county has fees (i.e. URIN, POLY) that you do not want to transfer, you must zero out the line item, close it and track outside the fee system.

These fees can be turned over to DOR prior to expiration although it’s not recommended by DOR.

## **TEMP LEAVE OFFENDERS**

The Automation Committee approved the charging of supervision fees to “temp” leave offenders. This decision was unanimous and it will be up to the individual counties as to whether to charge the fee or not during this leave time. NOTE – it is written in the State Statute that while a offender is on temporary leave, they can pay fees.

## MISCELLANEOUS

### Frequently Asked Questions:

**Q:** How should I handle a balance forward?

**A:** There are two ways to bring a balance forward. You can use a Transaction Type of PREV or you can create a new PREV account.

**Q:** When an offender asks: “Why do I have a supervision fee balance when I just got out of prison?”

**A:** An offender needs to be told that his supervision fee balance does not ever go away or get “forgiven”. It is just put on hold and when he goes back on community supervision, the balance is brought forward.

**Q:** Is it legal to deny transfer when a client has a supervision fee balance?

**A:** It appears to be a county by county policy and should be discussed with your supervisor. Some counties make the offender pay any balance owing, before transferring, while some counties charge a fee to do the paperwork

**Q:** Is it OK to transfer an offender with a credit balance?

**A:** Yes, credit balances that are due to prepaying the fees are rare and it is OK to transfer offenders with a credit balance. In the long run these will balance out.

**Q:** When an offender has fees owing and requests to move to another state, what happens to the money he owes?

**A:** It is really hard to collect money from an offender who has moved out of state. We can continue to bill him for the fees owed prior to the transfer, but really have no power to collect. It is more difficult for DOR to collect when an offender is out of state. It is best if the fees are collected prior to transfer out of state.

**Q:** Bankruptcy – Do you go to the hearing? Do you return paperwork?

**A:** You should at least follow-up on notices received. While it is in litigation, you cannot try to collect, but after the bankruptcy has been discharged you can proceed with collections. Supervision fees are not a dischargeable debt and are collectible after the bankruptcy is discharged. Be sure to turn the “Print Statement” to (N) during this period.

**Q:** If all fees are turned over to DOR for collection and that offender files bankruptcy, can he list the DOR bill?

**A:** Yes, if you receive a bankruptcy notice on a client that has been turned over to DOR, then DOR needs to be notified. This is still not a dischargeable debt. You are not allowed to try to collect while bankruptcy proceedings are going on. Once it is settled you can collect these fees.

**Q:** Should fees be waived while an offender is in sanction custody?

**A:** The consensus is this appears to be a per PO policy and that each office/County is different in this policy. Contact your supervisor.

**Q:** Should offenders be given the chance to dispute their supervision fee balance and pay it before it is sent to DOR? Are counties required to send a 30-day letter?

**A:** No, per DOR. Their response being the fact that supervision fees are a court ordered fee and that the offender is liable and responsible for payment. Therefore we are not required to send a warning letter before turning over the balance to DOR. It should be an individual county policy. Counties that do send a 30-day warning/notice, report an increase in revenue.

**Q:** Are there any fees that cannot be turned over to collection?

**A:** All fees can be turned over for collection

**Q:** Do we have to wait until supervision expiration to turn over other fees (ESP or Treatment) owed?

**A:** You can turn over other fees to DOR before the offender expires as long as the fee is not being tracked in the CIS and the offender is no longer accruing these fees. (This is not recommended by DOR)

**Q:** When an offender is on Unsupervised Probation, can we send DOR the account? (they are no longer charged for supervision fees and their account is closed)

**A:** No, offender has to be officially discharged in order to send to DOR.

**Q:** What happens if two counties send a collection notice to DOR? Which would be paid first?

**A:** First in first out; whichever county turned in the form first will be paid first.

**Q:** How long does DOR keep an account?

**A:** Two years if there is no collection. If they receive even \$1, they can hold the account for another year.

**Q:** When an offender's account is closed by DOR, can we get a list of the closures?

**A:** Yes, DOR sends out this list monthly.

**Q:** How do I cancel a DOR form?

**A:** Do an adjustment memo and send to DOR. This can be mailed, faxed or called in.

**Phone:** 1-877-222-2346 toll free

**Fax:** (503)947-2050

**Address:** 955 Center Street NE, Salem, OR 97310

## TIPS-N-TRICKS

- Marion County reports they charge a \$50 handling fee for all accounts that go to DOR. By doing this, they are guaranteed being able to turn over every account for collection even those as low as \$25. This went through their county commissioners for approval before being implemented.
- Coos County send letters to offenders assigned to caseloads that were not collecting much in supervision fees. The letters inform the offender that if they did not pay their fees, they were going to be given one day of community service.
- Klamath County has the Corrections Assistants who take money add their initials to the “Document Number” field. This field shows up on the reports and allows whoever is balancing the daily receipts to see who is taking money. If there is a discrepancy, a balance for each person can easily be added up to find out where the discrepancy is.
- When printing statements, the system looks at the mailing address first, then the main address. If you experience problems with an address, you may try clearing out all the information, waiting overnight and re-entering it the next day. When reading the address, it picks up the first and third lines for the billing statement.
- To avoid having statements run over onto two pages because of several accounts of one kind, these accounts can be combined into one. i.e. more than one account for URIN, add total of all, create new account with that balance, zero out and close all others.

- Klamath County has a form that is filled out by any PO requesting adjustments/waivers to offenders' accounts (see below). Once the transaction is completed, the person entering the information put their initials in the bottom right corner, if a receipt is produced attach it to this form and give to the PO to keep in the file.

## CREATING A MACRO

### *What is a Macro?*

A macro is a series of commands/keystrokes that you can group together as a single command to accomplish a repeated task automatically.

### *Typical uses for a Macro:*

- ↔ To speed up routine editing and data entry
- ↔ To automate a complex series of tasks
- ↔ To combine multiple commands into one

You can create a MACRO that is stored permanently in a library for you to use anytime, like when performing repetitive transactions (during Waiver Week you perform a waiver for every payment received).

- Open the “Record a Transaction” screen. Hit <Record>.
- You will be asked to name the macro.
- **Be sure to mark the Record Format as a Macro file or the text will not wrap around (default will be a VBScript file).**
- Choose the OK button.
- At this time you will be back at the Transaction window. Everything you type at this time is being recorded so type slowly and carefully. Type the information you wish to be stored in your macro including back tabs. Be sure to end up in the amount field so that when the macro is finished playing all you have to do is type in the amount and hit Enter, F8.
- When the all the information is as you like it, hit <Stop>. You are now ready to use your Macro.
- Make sure your cursor is in the same beginning place to play a Macro as it was when you recorded it.
- Hit <Play>, choose the macro you wish to play and then press OK. All the fields which you had typed information into during the recording will automatically fill in.

(**Tip:** Klamath County used “1” as the name of their macro when having their Waiver Week. Since numbers come up before letters on the list of macros, it actually cut down on keystrokes. After making sure that the cursor is in the correct starting position, press <Play>, “1”, and hit <Enter>. The number of steps to complete everything on a waiver except the amount is reduced to 3. If you need assistance setting up a macro, call a fellow Fee Rep for assistance.)

## COUNTERFEIT MONEY

### **If you suspect a bill is counterfeit, please follow the process set out below:**

- Use the Counterfeit Detector Pen on all bills (remember that US currency before 1959 may show up as counterfeit. Be sure to check the date of the bill).
- **DO NOT** refuse to accept the bill or return the bill to the passer.
- NOTE the passer's description, the description of a companion and the license number of the vehicle used. (Since you are taking the payment for fees, PRESS the Screen Print button, for a copy of the name, SID and PO name.)
- TELEPHONE the nearest County Sheriff's Office or the United States Secret Service (1-503-326-2162) if you are certain the bill is counterfeit. If you are uncertain if the bill is counterfeit and send it to the Treasurer's Office.
- HANDLE the bill as little as possible to preserve any fingerprints and place it in a protective cover (envelopes or sheet protectors work well).
- SURRENDER the bill only to the police, the Treasurer's office, or the U.S. Secret Service.
- **DO NOT DO ANYTHING TO ENDANGER YOURSELF.**

## MONEY GENERATING IDEAS

- Coos County charges an up front fee for any offender that requests a transfer. This fee is to help offset the costs involved for paperwork and staff time. The fee is collected BEFORE the paperwork is started. **Note:** Coos County had to go through their County Counsel and Commissioner's for approval.
- Marion County charges a \$50 handling fee for all accounts that go to DOR. By doing this, they are guaranteed being able to turn over every account for collection no matter how small. **Note:** This went through their County Commissioners for approval before being implemented.
- Coos County sent letters to offenders assigned to a PO's caseload that was only collecting \$200 per month. The letters informed the offender that if they did not pay their supervision fees, they were going to be given one day of community service. Apparently this worked. The next month the same PO ended up collecting over \$1000.
- Marion County have the following Past Due Waivers:  
Pay your past due balance in full and receive a \$70 credit. (\$500.00 and up).  
Pay your past due balance in full and receive a \$35 credit (\$499.99 and below)
- Amnesty Week  
Marion County had their first Amnesty Week on April 30<sup>th</sup> - May 4<sup>th</sup>, 2001. It was **VERY SUCCESSFUL!** In 1 week, they brought in \$47,000.00+ They would only take payments from April 30<sup>th</sup>- May 4<sup>th</sup>. They did take a few cash payments before the amnesty date, due to having cash, right then & there. They would not allow any waiving of future supervision fees, this was only for PAST DUE AMOUNTS.
- Examples of signs & labels used by Marion County:

### Collection Labels

<p><b>AMNESTY WEEK!!!!</b> April 30<sup>th</sup> - May 4<sup>th</sup>, 2001. Pay 50% of supervision account &amp; <u>we will waive the rest!</u> <i>One time offer only.</i></p>
--

### Lobby signs

<p><b>ASK US ABOUT AMNESTY WEEK!</b></p>	<p><b>AMNESTY WEEK</b> Pay 50% of your Supervision Fees between April 30<sup>th</sup> &amp; May 4<sup>th</sup> and we will waive the remaining balance. <i>(This is a one time offer only)</i></p>	<p><b>AMNESTY WEEK</b> April 30<sup>th</sup> - May 4<sup>th</sup>, 2001. Pay ½ of your Supervision Fee <u>balance</u> and we will waive the other 1/2.</p>
--	--	--

## **RECORD RETENTION**

The standard retention period is 2 years for all receipts and A/R records per Secretary of State Audit office. It is recommended to check with local county policy.

## **CHECK ENDORSEMENT**

(Submitted by Linda Liming/Lincoln County)

Occasionally a check needs to be endorsed so that it can be turned over to another county since the offender has transferred and they were billed prior to the transfer. They then sent one more check to the transferring county. The back of the check should be endorsed to say:

County stamp:           For Deposit only

DEPARTMENT OF CORRECTIONS

Write beneath it:       by (please write your own name)

Paid to the Order of (County check is going to)

## **BANKRUPTCY INFORMATION**

### What is Bankruptcy?

Bankruptcy is Federal Law and is written into the Constitution. It dates back to 1780's-1790 and was created in order to allow people who are financially destitute a chance to clear some or all of their debt and to get a fresh start financially. Due to the fact that Bankruptcy is a Federal Law, it is considered supreme and will overrule State Law. Bankruptcy filings are usually due to the economy and are common among our clients.

### How does Bankruptcy clear debt?

As soon as a person files bankruptcy, an automatic stay is issued which means that any creditor that the debtor owes money cannot try to collect on that debt until a ruling has been made. If you are listed as a debtor in the bankruptcy paperwork, the bankruptcy court will notify you in writing. All collection proceedings must stop; including phone calls, billings and statements, until after the debtor gets through the proceeding and a decision is made. If you/your company is listed as a debtor, it is likely that you will receive payment for the debt. Word of mouth also applies to notice and if you hear the person is in bankruptcy, it is recommended that steps be taken to verify the information.

## **Discharge**

The Bankruptcy is discharged after the debtor goes through the proceedings and creditors are identified. Fees will not be discharged if they are part of a criminal fine or restitution.

### Are Supervision Fees dischargeable?

The answer to this is unclear. It has not been asked or challenged before, and according to Mr. Rosenhouse, until it is, we should consider Supervision Fees to not be a dischargeable debt.

**CHAPTER 7** is the most common bankruptcy and means that all assets are liquidated to the Court, then the trustee sells assets and distributes to the creditors to pay off the debt. Chapter 7 bankruptcies are generally discharged 75 days after the meeting of the creditors.

**CHAPTER 13** is when the debtor submits a plan to the bankruptcy court for paying off creditors and makes payments to the trustee, which is then distributed to the creditors. The debtor usually has a 3-5 year plan and in order to qualify for this they must have a steady income.

## **General information regarding bankruptcy:**

- ⇒ Federal bankruptcy cases are only heard in federal bankruptcy courts, not State.
- ⇒ Anything that is accrued up to the moment of filing is generally dischargeable, however, new charges accrued are not discharged or stayed and can be billed for.
- ⇒ If you violate the discharge injunction, you will be subject to all repercussions as if you violated a court order.
- ⇒ The case can end with either a Notice of Discharge or Dismissal.
- ⇒ Fees that are not ordered by the court may be discharged and could include UA's, breaking barriers, polygraphs, etc. Generally, if it is not ordered by the court, it could be discharged and questioned.
- ⇒ Discharge of case should be 60 days after the meeting of creditors – total time is generally 120 days from start to finish.

How are Counties supposed to handle an ongoing / accruing supervision fee? We can only collect on fees which are accrued AFTER the client files bankruptcy IF it is a Chapter 7, but not a Chapter 13. If you are not sure which chapter your client filed under, it was suggested to wait until after a decision has been made before you start the collection process again. It was also suggested that a new account could be opened for fees accruing AFTER the client has filed, which you could send statements for and leave the old account with a balance, but with an end date.

**Be careful not to actively pursue the old debt if you have notice of bankruptcy.**
