An Explanation of Oregon Unemployment Insurance Taxes and Benefits by Industry for Calendar Year, 2006

The analysis is divided into two sections: Taxpaying on the first three pages and Reimbursing on the second three pages. Taxpaying employers are those required to pay Unemployment Insurance (UI) taxes under Employment Department law. The designation includes private for-profit employers, some private non-profit, and Local Government employers who elect to be taxpaying. Approximately 97.6 percent of all employers are subject to Unemployment Insurance law are taxpaying. Reimbursing employers do not pay taxes. Instead, the law allows them to make payments in lieu of taxes in the amount equal to the Unemployment Insurance benefits paid to their former employees. Reimbursing employers include all State Government, most Local Government employers, and private non-profit employers who have elected to be reimbursing. Federal Government data have been included in the reimbursing section; however, the Federal Government is not subject to Oregon Employment Department law.

Down the left side of the table are 3-digit industry codes and descriptions taken from the North American Industry Classification System (NAICS) manual. The first column "Total Payroll" represents all wages paid by employers. The second column "Taxable Payroll" is the portion of total payroll on which UI taxes were assessed. The 2006 taxpaying employers paid tax on the first \$28,000 of each employee's earnings. The percent in the third column is calculated by dividing Taxable Payroll by Total Payroll.

"Tax Assessments," fourth column represents the tax liability of employers based on the amount of their taxable payroll multiplied by the tax rate assigned to them by the department. The next two columns "Taxes as a % of Total and Taxable Payroll" are tax assessments divided by the first and second columns, respectively. Taxes as a % of Taxable Payroll are often referred to as the "Industry Tax Rate."

The seventh column "Regular Benefits" is the amount of benefits paid to claimants in the 26-week Regular Unemployment Insurance program. The next two columns "Regular Benefits as a % of Total and Taxable Payroll" are Regular benefits divided by the first and second columns, respectively. The final column "Amount of Regular Benefits per \$100 Taxes Paid" means that for every \$100 of taxes paid by employers in a given industry, the amount shown was paid back in benefits to claimants from that same industry.

The preceding explanations apply to corresponding columns on the second three pages for Reimbursing employers.

It should be kept in mind that the calculations in this report represent industries as a whole. Within each industry category there may be considerable variations. If you want further information, please contact Jennifer Shawcross at (503) 947-1306 or Jennifer.J.Shawcross@state.or.us.
