RULE SUMMARY

These rules describe sign requirements for over-dimension vehicles or loads. Many types of self-propelled cranes do not have enough space on the front or rear of the vehicle to accommodate a sign the size required by rule without blocking headlights, turn signals, license plate, brake lights or taillights. The amended rule provides carriers an additional method to meet the rule requirements by allowing a vehicle's bumpers to be painted yellow and bear the words "OVERSIZE LOAD" painted or decaled in black. Such signage must meet lettering size, visibility, and reflective requirements in the rule. Self-propelled cranes that are registered in another jurisdiction may meet signage requirements on the bumper if the signage meets visibility and reflective rule provisions and the sign is in compliance with the vehicle's base state rules governing warning signs.
